

March 12th, 2020

Notice for symptom report

To all students, faculty, and staffs in Chiba University (except University Hospital)

As shown in "Correspondence to Novel Coronavirus (COVID-19) (new coronavirus) " and " Chiba University information of infection ", please follow our guidelines and refrain from attending any works, classes and services if you are experiencing flu-like symptoms including fever (37.5C or higher), cough or shortness of breath and so on.

Those who are responsible for each department or unit are to be very sure to stop the students and staffs with symptoms from coming to university for the recommended observation period.

If you do have ANY of the symptoms described above, please report us by email. The information you need to report to us is available on the web page of Safety and Health Organization (<http://hschome-gw.hsc.chiba-u.jp/>).

Please Email us for identifying symptoms and then we will continue to monitor and be able to help you consider when to come to campus for studying or for work when recovered, we can issue your medical certificate that is necessary for your absence permission slip as well.

If you work at Chiba University Hospital, or a student of medical training, please follow the instructions from CUH.

Thank you,
Yours sincerely,

Chiba University, Safety and Health Organization
